Brand New Book ***** Print on Demand *****.Excerpt from A Reconstructive Policy in Mexico The most important and promising movement of modern times for securing the welfare of the majority of mankind is the Socialistic. All previous existing systems, including the religious and the commercial, have failed owing to the revulsion of mankind since the time of Plato against the exploitation of the masses. Socialism alone has proved an adequate instrument for converting humanitarian theories into the hard metal of accomplished realities. The progressive efforts of the Socialists in Europe, the brilliant showing they have made in New Zealand, and the agitation throughout South America towards shaking off the remnants of the feudal yoke, are phenomena on which the gaze of the world is riveted today. Among such phenomena, the Mexican Revolution stands out prominently; and in spite of all the mantles with which Capitalism has endeavored to cloak it, the Mexican agitation shows more and more definite Socialistic tendencies, which are of tremendous importance to every South American country, and no less vital to the North American people, who; in their turn, will have to solve the same problems that are now being worked out in Mexico, notwithstanding the superior material progress of the northern hemisphere.
